

## **Portland Marine Police Station in Critical Disrepair: Isat Buchanan Demands Immediate Action**

**Kingston, Jamaica. January 10, 2025:** MP Candidate for Eastern Portland, Isat Buchanan, is calling for urgent action to address the severe disrepair of the Portland Marine Police Station. This call comes in response to the alarming state of the facility, where a leaking roof and crumbling infrastructure have created hazardous conditions for police officers and the community they serve.

The station, a critical hub for law enforcement in the parish, has been plagued by water damage from persistent leaks, deteriorating walls, and damaged flooring. These issues not only compromise the health and safety of officers but also hinder the effective delivery of public safety services to the people of Portland. Buchanan is demanding immediate resource allocation to restore the Portland Marine Police Station to a functional and safe standard. "Our police officers deserve a safe, secure environment to work in. The current state of this station is disgraceful and reflects poorly on the government's priorities. We must act now to ensure our officers can effectively serve and protect the people of Portland," he said.

This situation is symptomatic of a broader problem of neglected infrastructure in Eastern Portland. Buchanan is also calling for a comprehensive review of spending within the Ministry of National Security, particularly in light of recent budgetary announcements.

Additionally, Buchanan has questioned the silence and inaction of the sitting Member of Parliament (MP) for Eastern Portland. "The people deserve answers. Where is the MP? Why has this situation been allowed to deteriorate to such a critical state? This neglect is unacceptable and emblematic of the leadership vacuum in Eastern Portland. The time has come for leadership that genuinely prioritises the needs of the people," Buchanan stated.

The MP Candidate reaffirmed his commitment to being a strong advocate for the people of Eastern Portland, pledging to hold the government accountable and fight for the investment the constituency deserves.
